

# Smooth, Strong, & Made for Her: Introducing the Reimagined iroha paiRING

A Vibrating Ring Created with Female Pleasure in Mind

---

**Tokyo, 2026** – The Japanese leader in sexual wellness unveils [iroha paiRING and paiRING+](#), a new generation of vibrating rings created from a perspective rarely centered in this category: a woman's. Designed to deepen closeness, support both partners' pleasure, and fit naturally into everyday intimacy, the paiRING series offers a softer, more thoughtful approach to connection.

## Shaped for Shared Sensations

---

The paiRING's **soft, stretchable silicone ring** fits comfortably at the base of the penis, while the **slim, elongated vibrating product body** rests exactly where clitoral stimulation is most needed during penetration. The vibrations feel shared – an added layer of sensation rather than a distraction from it – thanks to a whisper-quiet motor designed to deliver both depth and delicacy.

The ring **also supports him**, adding a light level of constriction that can help maintain firmness and prolong climax.

Together, they create a shared rhythm that allows partners to tune into each other's pace, pleasure, and presence.

## For Every Kind of Intimacy

---

Where many vibrating rings create distance, paiRING brings partners closer together. Its slim, flat silhouette melts naturally between bodies, while its silky-smooth silicone feels gentle against the skin.

paiRING was designed for a variety of moments, not only penetration. The ring can be **looped around the fingers** for external stimulation, turning the elongated body into a beautifully ergonomic handheld vibrator. It also fits comfortably over **many toys**, adding vibration and clitoral contact during solo play or partnered exploration.

## The Meaning Behind “paiRING”

The name paiRING reflects three ideas at once:

- Pairing – Two people coming together
- Pair + ing – Connection as an ongoing, evolving experience
- Pair + Ring – A ring made for two

The paiRING builds on iroha’s popular **SVR Series**, long appreciated by couples – especially women – for heightening intimacy. Feedback consistently highlighted how approachable, comfortable, and satisfying the SVR models were, inspiring iroha to refine the concept even further. The result is paiRING: a more intuitive design shaped by what real couples told us they loved most and what they wished their ring could do next.

## Quote

“We created paiRING to make pleasure feel more connected – for both partners,” says **Rika Adachi**, Global Marketing Manager for *iroha*. “We started with women’s bodies in mind: the need for clitoral contact, the desire for softness over harsh edges, and the value of a product that feels inviting rather than intimidating. Whether together or alone, the goal is the same: to experience moments of calm confidence, curiosity, and closeness.”
